

Fresh Hop 13

Fresh Hop 13 is our pilsner that we brew once a year. We brew this fresh pilsner on the day our "hops farmer" starts harvesting the hops. We use undried hops for this special brew, which gives this Pils 13 an extra fresh "green" flavour. We brew the beer itself around September and it is available from mid-November. This version is therefore limited and available in 25cl bottles and 20 litre barrels.

Appearance

Slightly cloudy, blonde beer with large sturdy head.

Aromas

Malty, followed by slightly fruity notes, such as tropical fruits and grapefruit.

Taste

A bitter tone in the beginning, evolving into maltiness and the typical notes of green hops.
